October 23, 2015

**FOR IMMEDIATE RELEASE**

### **BEACH ADVISORY**

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at the 32 designated beaches throughout the Territory during the week of October 19-23, 2015. The following beaches **meet water quality standards and are safe for swimming or fishing**:

#### **St. Croix**

Stoney Ground  
Protestant Cay  
Chenay Bay  
Buccaneer  
Cramer Park  
Rainbow

New Fort (Ft. Louise  
Augusta)  
Dorsch  
Frederiksted Public Beach  
Cane Bay  
Pelican Cove (Comorant)

Gentle Winds

#### **St. Thomas**

Hull Bay  
Sapphire  
Vessup Bay  
Magen's Bay  
Secret Harbor  
Bluebeards  
Brewer's Bay  
Lindbergh Bay  
Lindquist

Water Bay  
Coki point  
Frenchman's Bay  
Bolongo Bay

**St. John**

Oppenhiemer  
Great Cruz Bay  
Frank Bay  
Johnson Bay

The following beaches **do not meet water quality standards because they exceed the established Enterococci Bacteria threshold and therefore are not considered to be safe for swimming or fishing:**

**St. Croix**

Shoy's  
Princess (Condo Row)

**St. John**

Cruz Bay

**PLEASE NOTE:** Halfpenny and Grapetree Bay on St. Croix could not be sampled this week due to the heavy presence of seaweed along the shoreline.

High levels of Enterococci Bacteria and Turbidity may be caused by runoff due to heavy rains, heavy marine vessel traffic, high wave activity near the shoreline, irresponsible recreational use, etc. Runoff can consist of sediment, pesticides, animal feces and oil & grease, all of which are harmful to the waters of the Territory.

DPNR will continue to monitor these popular swimming areas. DPNR also recommends that you use your own discretion when swimming or fishing at the designated beaches. If the waters appear muddy or murky or have foul odors, do not swim or fish. For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix.
