II. DATE OF NOTICE: [February 1, 2015](#)

Section 303(d) of the Clean Water Act (CWA), as amended by the Water Quality Act of 1987, requires every state and territory to: develop lists of water-quality limited waters still requiring Total Maximum Daily Loads (TMDLs); establish a priority ranking of these waters; identify pollutants causing their impairment; and identify waters targeted for TMDL development over the next two (2) years. TMDLs include a determination of pollutant loadings compatible with achievement of applicable state water quality standards.
