FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 29 designated beaches throughout the Territory during the week of September 2-6, 2019. **The following beaches meet water quality standards and are safe for swimming or fishing:**

St. Croix

Shoy's
New Fort (Ft. Louise
Augusta)
Dorsch
Frederiksted Public Beach

Stony Ground
Pelican Cove (Cormorant)
Rainbow
Buccaneer
Protestant Cay

Chenay Bay
Cramer's Park
Halfpenny
Cane Bay

St. Thomas

Lindbergh Bay
Lindquist
Sapphire
Bluebeard's
Brewer's Bay

Secret Harbor
Vessup Bay
Hull Bay
Frenchman's Bay

St. John

Cruz Bay
Oppenheimer
Frank Bay

The following beaches **do not meet water quality standards because they exceed the established Enterococci Bacteria threshold and therefore are not considered to be safe for swimming or fishing:**

St. Thomas

Water Bay
Magen's Bay
Coki Point

St. John

Great Cruz Bay

Please Note: Samples were not collected at the following beaches:

- *Bolongo Bay in St. Thomas*
- *Johnson Bay in St. John*
- *Princess (Condo Row) and Grapetree Bay on St. Croix*

Therefore, the water quality of these beaches is unknown.

All persons should also be aware that storm water runoff may also contain contaminants or pollutants harmful to human health and therefore all persons should avoid areas of storm water runoff (i.e. guts, puddles, and drainage basins) or if any area appears discolored or has foul odors. DPNR will continue to monitor the impacted areas and waters.

For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
