FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 32 designated beaches throughout the Territory during the week of March 23-27, 2020. **The following beaches meet water quality standards and are safe for swimming or fishing:**

St. Croix		
Stony Ground	Pelican Cove (Cormorant)	Chenay Bay
Dorsch Beach	Protestant Cay	Cramer's Park
Frederiksted Public Beach	Rainbow Beach	Halfpenny
New Fort (Ft. Louise Augusta)	Buccaneer	
Cane Bay	Shoy's	

St. Thomas		
Lindbergh Bay	Sapphire Beach	Frenchman's Bay
Brewer's Bay	Vessup Bay	
Hull Bay	Bluebeard's Beach	
Magen's Bay	Secret Harbor	
Coki Point	Bolongo Bay	

St. John
Cruz Bay
Oppenheimer
Johnson Bay
Frank Bay

The following beaches **do not meet water quality standards because they exceed the established Enterococci Bacteria threshold and therefore are not considered to be safe for swimming or fishing:**

St. Croix
Princess (Condo Row)

St. Thomas
Water Bay
Lindquist Beach

St. John
Great Cruz Bay

Please Note: Samples were not collected at the following beach:

- *Grapetree Bay*

Therefore, the water quality of this beach is unknown.

All persons should also be aware that storm water runoff may also contain contaminants or pollutants harmful to human health and therefore all persons should avoid areas of storm water runoff (i.e. guts, puddles, and drainage basins) or if any area appears discolored or has foul odors. DPNR will continue to monitor the impacted areas and waters.

For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
