FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci, Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 35 designated beaches throughout the Territory during the week of February 22 – February 26, 2021. The following beaches meet water quality standards and are considered safe for swimming and fishing:

St. Croix		
Cane Bay	Pelican Cove	Shoy’s Beach
Dorsch Beach	Princess (Condo Row)	Chenay Bay
Frederiksted Public Beach	Protestant Cay	Cramer’s Park
Rainbow Beach	New Fort (Ft. Louise Augusta)	Halfpenny Beach
Grapetree Bay	Buccaneer	Stony Ground

St. Thomas		
Lindbergh Bay	Sapphire Beach	Lindquist Beach
Bolongo Bay	Vessup Bay	Coki Point
Frenchman’s Bay	Secret Harbor	Water Bay
Magen’s Bay	Bluebeard’s Beach	Limetree Bay
Brewer’s Bay	Hull Bay	

Water Island		
Honeymoon Beach		

St. John
Cruz Bay
Oppenheimer
Johnson Bay
Great Cruz Bay
Frank Bay

Please note: Samples were not collected at the following beaches:

- *Gentle Winds on St. Croix (due to sargassum seaweed)*
- *Morningstar on St. Thomas (due to time constraints)*

Therefore, the water quality at these beaches is unknown.

All persons should be aware that storm water runoff may also contain contaminants or pollutants harmful to human health, and therefore all persons should avoid areas of storm water runoff (i.e. guts, puddles, and drainage basins) or any area that appears discolored or has foul odors. DPNR will continue to monitor the impacted areas and waters.

For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
