FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci, Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 31 designated beaches throughout the Territory during the week of July 12, – July 16, 2021. The following beaches meet water quality standards and are considered safe for swimming and fishing:

St. Croix		
Stony Ground	Pelican Cove	Buccaneer
Dorsch Beach	Cane Bay	Shoy’s Beach
Halfpenny Beach	Protestant Cay	Frederiksted Public Beach
Cramer’s Park	New Fort (Ft. Louise Augusta)	Rainbow Beach
Chenay Bay	Gentle Winds	Sprat Hall

St. Thomas		
Water Bay	Sapphire Beach	Lindqvist Beach
Bolongo Bay	Vessup Bay	Coki Point
Bluebeard’s Beach	Secret Harbor	
Magen’s Bay	Lindbergh Bay	
Brewer’s Bay	Hull Bay	

St. John		
Cruz Bay		
Oppenheimer		
Frank Bay		

The following beach does not meet water quality standards because it exceeds the established Enterococci Bacteria threshold and therefore is not considered safe for swimming or fishing:

- *Great Cruz Bay on St. John*

Please note: Samples were not collected at the following beaches:

- *Johnson Bay on St. John*
- *Princess (Condo Row) and Grapetree Bay on St. Croix*
- *Frenchman's Bay on St. Thomas*
- *Honeymoon (Druif) Beach on Water Island*

Therefore, the water quality at these beaches is unknown.

All persons should be aware that storm water runoff may also contain contaminants or pollutants harmful to human health, and therefore, should avoid areas of storm water runoff (i.e. guts, puddles, and drainage basins) or any area that appears discolored or has foul odors. DPNR will continue to monitor impacted areas and waters.

For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
