FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci, Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 19 designated beaches throughout the Territory during the week of May 23 – May 27, 2022. The following beaches meet water quality standards and are considered safe for swimming and fishing:

St. Thomas		
Lindbergh Bay	Vessup Bay	Secret Harbor
Brewers Bay	Hull Bay	Frenchman’s Bay
Water Bay	Lindqvist Beach	Coki Point
Magens Bay	Bluebeard’s Beach	
Sapphire Beach	Bolongo Bay	

St. John
Cruz Bay
Great Cruz Bay
Frank Bay
Oppenheimer Beach
Johnson Bay

Water Island
Honeymoon Beach

Please note: Samples were not collected on St. Croix.

Therefore, the water quality at these beaches is unknown.

All persons should be aware that storm water runoff may also contain contaminants or pollutants harmful to human health and therefore, should avoid areas of storm water runoff (i.e., guts, puddles, and drainage basins) or any area that appears discolored or has foul odors. DPNR will continue to monitor impacted areas and waters.

For additional information regarding water quality call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
