RE: Virgin Islands Department of Human Services Request for Federal Consistency for the Demolition and Reconstruction of the Head Start Anna's Hope Administration Building, St. Croix - Bipartisan Budget Act of 2018 (Feb. 9, 2018)

Dear Commissioner Oriol,

The Virgin Islands Department of Human Services (VIDHS) respectfully requests approval of the Federal Consistency for the Head Start Program's Reconstruction Project for their Anna's Hope Administration Building. VIDHS is proposing the partial demolition of the Administration Building in preparation for the reconstruction of the replacement facility. The Administration Building is located at No. 8 & Matr 36-A, Anna's Hope, St. Croix. The Administration Building suffered major damage during Hurricane Maria in September 2017 and will be demolished and replaced through funding provided by the Bipartisan Budget Act of 2018 (Feb. 9, 2018).

The existing buildings were originally constructed prior major hurricane damage in the late 80's from Hurricane Hugo to more recently, Hurricane Maria in 2017. Since the time of Hurricane Hugo in 1989, the Virgin Islands has adopted, first the Uniform Building Code for structures, and more recently, the International Building Code. Besides the existing poor condition of the buildings on site. Caused by damages from past hurricanes, their old construction cannot meet the structural requirements of the 2018 International Building Code. Furthermore, the existing structure cannot accommodate the program requirements for a functional facility.

This request for Federal Consistency is for the demolition and reconstruction of the Administration Building. The demolition of the Administration Building will remove the existing elevated one-story masonry structure that was catastrophically damaged by Hurricane Maria. The proposed demolition project will impact only previously disturbed areas associated with the removal of the existing Administration Building down to the existing foundations. The proposed project is the initial step in the permanent restoration of the existing administrative services for the department's Head Start Program on the island of St. Croix. The proposed project will begin as soon as all approvals have been finalized and a construction schedule will be furnished once a contractor is selected.

Attached, please find a Project Summary demonstrating the project's compliance with the U.S. Virgin Islands Coastal Zone Management Program and drawings of the proposed demolition and reconstruction project. Please contact Deputy Commissioner, Miguel Tricoche, at 340-474-2489, or Miguel.Tricoche@dhs.vi.gov if you have any questions or concerns.

Respectfully,

Kimberly Causey-Gomez, MSW
Commissioner
