USVI Territorial Pollution Discharge Elimination System (TPDES)

Application Fees and Annual Discharge Fees

for

Individual TPDES Permit

This form is used when paying application and annual discharge fees for an individual TPDES permit. 12 VIRR § 184-35(b) requires permit applicants and permittees to pay:

- an application fee when applying for a new or renewed TPDES permit;
- an annual discharge fee each year (or partial year) in which the permit is in effect; and

 a special fee when applying for certain modifications to an existing permit. 			
I. FEE PAYMENT: After you	I. FEE PAYMENT: After you have completed section V below (Determining Your Fee Payment) complete

	ANNUAL DISCHARGE FEE: Effective and due on October 1, 2020, an annual discharge	fee is required
for each permittee conducting operations. Each year after, the annual discharge fee is due on Marc		
31.		
	For the first year you are covered by a permit, if the coverage starts after February 1,	the annual fee
	is due 60 days after the date coverage starts.	
	The information you supply below should match data reported on your discharge mo	nitoring reports
	(DMRs).	
	I am a public school. No fee. Enter this amount in Section I above.	\$0
	If you are not a public school, follow steps 1 through 10 below to calculate your ave	-
	discharge flow and Normal Annual Discharge Fee. All discharge amounts and volum	
	prior calendar year and should be entered in gallons per day. If your facility was not	t in operation
	in the prior calendar year or you anticipate significant variations in discharge amour	nts from the
	prior year, please contact DPNR for further directions.	
	Enter your average daily discharge flow for the prior calendar year	
	2. My average daily volume of wastewater discharged through an approved	
	irrigation or land application infrastructure is gallons per day.	
	If the form does not automatically fill in a number to the right, enter the	
	number that is 0.5 times the number you entered in this box.	
	3. My average daily volume of wastewater from systems producing potable	
	water is gallons per day.	
	If the form does not automatically fill in a number to the right, enter the	
	number that is 0.5 times the number you entered in this box.	
	4. My average daily volume of wastewater used as once-through non-	
	contact cooling water is gallons per day.	
	If the form does not automatically fill in a number to the right, enter the	
	number that is 0.75 times the number you entered in this box.	
	5. My average daily volume of the wastewater determined by DPNR to be	
	flow-through discharge is gallons per day.	
	DO NOT ENTER a number in this box unless you have received DPNR's	
	approval to do so.	
	If the form does not automatically fill in a number to the right, enter the	
	number that is 0.99 times the number you entered in this box.	
	6. If your average daily discharge flow entered on line 1 includes average stormwater discharge that is covered by a VI MSGP or VI CGP, then enter	
	that stormwater discharge amount to the right in gallons per day	
	7. This is your Average Daily Discharge Flow that will be used to determine	
	your annual discharge fee.	
	If the form does not automatically fill in a number to the right, subtract	
	the numbers in the far-right column in lines 2 through 6 from that in line	
	1 and enter that number to the right.	
	8. Enter the Permit Fee amount listed in Table 2 (below) for the Average	
	Daily Discharge Flow in line 7.	
	9. Enter \$500 if your permit includes a mixing zone and \$0 if it does not.	
	5. Litter \$500 ii your permit includes a mixing zone and \$0 ii it does not.	
	10. This is your NORMAL ANNUAL DISCHARGE FEE.	
	If the form does not automatically fill in a number to the right, add the	
	numbers in the far-right column in lines 8 and 9 and enter that number to	
	the right.

40,000,001 to 100,000,000	\$42,250	
greater than 100,000,000	\$55,000	

Minor modifications are defined in 12 VIRR 184-75 as modifications that only:

- (a) Correct typographical errors;
- (b) Require more frequent monitoring or reporting by the permittee;
- (c) Change an interim compliance date in a schedule of compliance, provided the new date is not more than 120 days after the date specified in the existing permit and does not interfere with attainment of the final compliance date requirement; or
- (d) Allow for a change in ownership or operational control of a facility where the Director determines that no other change in the permit is necessary, provided that a written agreement containing a specific date for transfer of permit responsibility, coverage, and liability between the current and new permittees has been submitted to the Director.
- (e) Delete a point source outfall when the discharge from that outfall is terminated and does not result in discharge of pollutants from other outfalls except in accordance with permit limits.
- (f) Incorporate conditions of a POTW pretreatment program that has been approved in accordance with the procedures in <u>40 CFR 403.11</u> (or a modification thereto that has been approved in accordance with the procedures in <u>40 CFR 403.18</u>) as enforceable conditions of the POTW's permits.
