FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, which is a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 35 designated beaches throughout the Territory during the week of February 3 – February 7, 2025.

Based on the analytical results, the following beaches met water quality standards and are considered safe for swimming and fishing:

St. Croix		
Buccaneer Beach	Grapetree Beach	Rainbow Beach
Cane Bay	Ha’Penny Beach	Shoy’s Beach
Chenay Bay	New Fort Louisa Augusta	Stony Ground
Cramers Park	Pelican Cove (Comorant)	
Frederiksted Public Beach	Princess (Condo Row)	
Gentle Winds	Protestant Cay	

St. Thomas		
Bluebeard’s Beach	Hull Bay	Morningstar
Bolongo Bay	Limetree Beach	Sapphire Beach
Brewers Bay	Lindbergh Bay	Secret Harbor
Coki Point	Lindqvist Beach	Vessup Bay
Frenchman’s Bay	Magen’s Bay	

St. John
Cruz Bay
Frank Bay
Great Cruz Bay
Johnson Bay
Oppenheimer Beach

The following beach does not meet water quality standards because it exceeds the established Enterococci Bacteria threshold. Therefore, it is not considered safe for swimming or fishing.

- *Dorsch Beach on St. Croix.*

Please note: Samples were not collected at the following beaches.

- *Water Bay on St. Thomas*
- *HoneyMoon Beach (Druif) on Water Island.*

Therefore, the water quality at these beaches is unknown.

Please be advised that anyone swimming in sewage-impacted or stormwater-impacted areas may be at an elevated health risk because of increased concentrations of bacteria or other contaminants. Areas impacted by sewage, stormwater runoff (i.e., guts, puddles, and drainage basins), or any area that appears discolored or has foul odors should be avoided. DPNR will continue to monitor impacted areas and waters.

For additional information regarding water quality, call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
