FOR IMMEDIATE RELEASE

BEACH ADVISORY

The Department of Planning and Natural Resources (DPR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, a measure of water clarity, advises the public of the following:

DPR performed water quality analysis at 32 designated beaches throughout the Territory during the week of November 24– November 26, 2025.

Based on the analytical results, the following beaches met water quality standards and are considered safe for swimming and fishing:

St. Croix		
Buccaneer Beach	Gentle Winds	Prosperity Beach
Cane Bay	Grapetree Bay Beach	Protestant Cay
Chenay Bay	Ha’Penny Beach	Rainbow Beach
Cramers Park	New Ft. Louisa Augusta	Shoys Beach
Dorsch Beach	Pelican Cove (Comorant)	Sprat Hall
Frederiksted Public Beach	Princess Condo Row	Stony Ground

St. Thomas	
Bluebeards Beach	Lindqvist Beach
Bolongo Bay	Magens Bay
Brewers Bay	Sapphire Beach
Coki Point	Secret Harbor
Frenchman Bay	
Limetree Beach	
Lindbergh Bay	

Water Island
Honeymoon Beach (Druif)

The following beaches do not meet water quality standards because they exceed the established Enterococci bacteria threshold and are therefore considered unsafe for swimming or fishing:

- *Hull Bay on St. Thomas*
- *Vessup Bay on St. Thomas.*

Please note: Samples were not collected at the following beaches.

- *Water Bay on St. Thomas*
- *Morningstar Beach on St. Thomas*
- *Beaches on St. John.*

Therefore, the water quality at these beaches is unknown.

Please be advised that anyone swimming in waters contaminated with sewage, stormwater, or with large amounts of sargassum may be at an elevated health risk due to elevated concentrations of bacteria or other contaminants. Waters impacted by sewage, stormwater runoff (i.e., guts, puddles, and drainage basins), large amounts of sargassum, or any area that appears discolored or has foul odors should be avoided.

For additional information regarding water quality, call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
