**FOR IMMEDIATE RELEASE**

**BEACH ADVISORY**

The Department of Planning and Natural Resources (DPNR) announces that the Beach Water Quality Monitoring Program, which evaluates weekly water quality at popular swimming beaches throughout the Territory by sampling for Enterococci Bacteria and Turbidity, a measure of water clarity, advises the public of the following:

DPNR performed water quality analysis at 37 designated beaches throughout the Territory during the week of December 15– December 19, 2025.

Based on the analytical results, the following beaches met water quality standards and are considered safe for swimming and fishing:

<b>St. Croix</b>		
Buccaneer Beach	Gentle Winds	Prosperity Beach
Cane Bay	Grapetree Bay Beach	Protestant Cay
Chenay Bay	Ha'Penny Beach	Rainbow Beach
Cramers Park	New Ft. Louisa Augusta	Shoys Beach
Dorsch Beach	Pelican Cove (Comorant)	Sprat Hall
Frederiksted Public Beach	Princess Condo Row	Stony Ground

<b>St. Thomas</b>		
Bluebeards Beach	Hull Bay	Magens Bay
Brewers Bay	Limetree Beach	Sapphire Beach
Bolongo Bay	Lindbergh Bay	Secret Harbor
Frenchman Bay	Lindqvist Beach	Vessup Bay

<b>St. John</b>
Great Cruz Bay
Frank Bay
Johnson Bay
Oppenheimer Beach

<b>Water Island</b>
Honeymoon Beach (Druif)

The following beaches do not meet water quality standards because they exceed the established Enterococci bacteria threshold and are therefore considered unsafe for swimming or fishing:

- *Coki Point on St. Thomas*
- *Cruz Bay on St. John.*

**Please note: Samples were not collected at the following beaches:**

- *Morningstar Beach on St. Thomas*
- *Water Bay on St. Thomas.*

*Therefore, the water quality at these beaches is unknown.*

Please be advised that anyone swimming in waters contaminated with sewage, stormwater, or with large amounts of sargassum may be at an elevated health risk due to higher concentrations of bacteria or other contaminants. Waters impacted by sewage, stormwater runoff (i.e., guts, puddles, and drainage basins), large amounts of sargassum, or any area that appears discolored or has foul odors should be avoided.

For additional information regarding water quality, call the Division of Environmental Protection at 773-1082 in St. Croix or 774-3320 in St. Thomas.
