PUBLIC NOTICE

I. Notice of the Department of Planning and Natural Resources' (DPNR) intent to establish an Intended Use Plan (IUP) for the Federal Fiscal Year (FFY) 2025 Bipartisan Infrastructure Law appropriations to the US Virgin Islands for the implementation of the Drinking Water and Clean Water State Revolving Funds (SRF).

II. DATE OF NOTICE: **September 14, 2026**

III. **BIPATISIAN INFRASTRUCTURE LAW**

On November 15, 2021, President Biden signed into law the Infrastructure Investment and Jobs Act of 2021 (IIJA) (P.L. 117-58), commonly referred to as the Bipartisan Infrastructure Law (BIL). The BIL appropriates more than \$43 billion to be administered through the existing Clean Water and Drinking Water State Revolving Fund programs over five years, starting in Fiscal Year 2022, with over \$173 million set-aside and dedicated to water projects in DC and the Territories to strengthen the drinking water and wastewater systems.

Under the FY2025 BIL SRF funding **\$44,124,000.00** has been allotted as grants to the US Virgin Islands for both Drinking Water and Clean Water initiatives. The funding allows the Territory to improve compliance with the Safe Drinking Water Act (SDWA) and Clean Water Act (CWA), provide safe drinking water, and protect the environment. Specifically, the funds can be used for drinking water and wastewater infrastructure improvement projects, addressing "Emerging Contaminants" and implementing "Lead Service Line Replacement".

The Omnibus Territories Act allows the Territory to apply for all, or a subset, of grants they are seeking from the US Environmental Protection Agency by filing a single application and work plan. Subject to federal law, the Territory may use any or all the funds in a consolidated grant award for clean water or drinking water projects. The funds must be expended in furtherance of the programs and purposes that are being consolidated. The Territory determines the proportion of the funds allocated to the consolidated grant programs and purposes. The USVI has decided to apply for the CWA and SDWA BIL SRF funding as a single consolidated grant. A consolidated grant program can provide considerable benefits for the Territory. Consolidation can support the Territory's efforts to develop an overall approach to

public health protection, water quality planning, and to develop a big picture plan for water pollution control.

The FY2025 BIL SRF Intended Use Plan (IUP) describes how the Virgin Islands Capital Improvements Grant Program proposes to use the consolidated grant funds to meet the objectives of the CWA and SDWA and further the goal of protecting public health. Specifically, the IUP establishes program goals, administrative procedures, the Project Priority System (PPS), and Project Priority Lists (PPL). DPNR may amend the IUP to include additional ready-to-proceed projects as necessary to protect public health or address emergency needs within the U.S. Virgin Islands. DPNR and its partners have developed the proposed IUP for the FY2025 BIL SRF funds allotted to the U.S. Virgin Islands and hereby solicit public comments on this document.

IV. HOW TO OBTAIN A COPY OF THE PROPOSED 2025 BIL IUP OR REVIEW THE ADMINISTRATIVE RECORDS

The proposed FY2025 BIL SRF Intended Use Plan is available for public inspection by appointment at the DPNR's Division of Environmental Protection (DEP) offices on St. Thomas and St. Croix. To request a copy of the document or submit comments, please contact Mr. Harold Mark, Environmental Program Manager at 773-1082 ext. 2237 or harold.mark@dpnr.vi.gov. Comments and correspondences can also be sent to the following addresses:

Department of Planning & Natural Resources Division of Environmental Protection
45 Mars Hill Frederiksted, VI 00840
4611 Tutu Park Mall Suite 300, 2nd Floor St. Thomas, VI 00802

Copies of the FY2025 BIL SRF IUP will be available at the DPNR offices listed above table. The document may also be viewed and downloaded online at:

<https://dpnr.vi.gov/environmental-protection/capital-improvement-grants/>

Administrative records containing supporting technical information are available for review at the Division of Environmental Protection offices between 8:00 a.m. and 5:00 p.m., Monday through Friday, excluding holidays. Arrangements to review these records may be made through the offices listed above.

V. REQUEST FOR PUBLIC COMMENT

This notice announces the availability of the proposed 2025 BIL IUP for a two-week public comment period. The public comment period will begin on September 14, 2026 and end on September 28, 2026. No comments will be accepted after 12:00pm on September 28, 2026.

The public is asked to provide comments on the proposed use of the funds as detailed in the IUP. Comments can be sent via email to harold.mark@dpnr.vi.gov or to the addresses above. Your comments will be taken into consideration for the finalization of the IUP.

VI. DPNR'S RESPONSE TO COMMENTS

Following the close of the public comment period, DPNR will prepare written responses to comments and petitions received. All comments and petitions submitted during the notice period will be considered. DPNR's responses to comments and petitions will be made available to the public in the same manner as this notice.
